

'Sensational Senses' Homework Grid- Autumn 1
India and Italy

Please complete one activity from the grid below each week. We can't wait to see your learning.

DT / Music

Make a musical instrument using recycled materials. You may choose to make a shaker, a drum, a guitar, a harmonica or anything else you can think of!

English

Stand outside and write down everything you can see, hear and smell.

Maths

Make sure you are practising your number facts on Numbots, and/or your times tables on TT Rockstars. Make a poster of number facts or a times table.

Science

Carry out a tasty experiment! Covering your eyes, taste some food, describe the taste and guess what the food is. Why not explore whether holding your nose makes describing the taste easier or harder?

Art

Make a sensory collage. Fill your paper with bumpy, smooth and rough textures.

PE

Complete some exercises (star jumps, running on the spot, jumping etc) and then stop. What happened to your breathing? What happened to your heart rate?
